

Request Daily/Monthly/Yearly Extreeme data:

The User Requests the Extreeme (min/max) weather data:

1. Temperature
2. Humidity
3. Barometric Pressure
4. Dewpoint
5. Heat Index

In the appropriate Units:

1. Metric
2. English
3. Absolute (SI-if different from Metric)

for a given Day, Month, Year by entering the daily, monthly or yearly extreeme request.

The System locates the latest archived data for the desired extreeme data for the given time frame (Month, Day, Year). The System returns the requested data in the requested Units.
